OFFICIAL PAPER OF SOCORRO COUNTY.

SATURDAY, MARCH 29, 1902.

New Mexico demands statehood of the 37th congress.

EDITOR TRUJILLO of El Republicano censures us for the publication of an article which recently appeared in an Ohio paper and which we entitled "As Others See Us." The ground of Mr. Trujillo's censure is that the article contains certain expressions which in his opinion are intended to ridicule the Spanish speaking element of Socorro's population and their customs. We think that Editor Trujillo has mistaken the spirit of the article referred to. The article is a long one and on the whole exceedingly complimentary to our city. To be sure it contains some statements which are not as accurate as they might be and from which erroneous conclusions might easily be drawn; nevertheless we are of the opinion that the effect of those statements cannot possibly be grave enough seriously to mar the general good effect of the article. Furthermore, we are as zealous as anybody can be for the fair name of Socorro and of every element of its population and whenever that fair name may need to be defended THE CHIEFTAIN will not wait to be asked to render the service.

Miss Columbia's Friends.

It is an interesting occasion when the village begins to recognize a belle in the demure little girl who has been wearing her hair in two braids and helping her mother about the household.

Can one blame the young lady if she feels a little set up at first? It is certainly pleasant to get a gracious bow and a smile from nice young men who used to content themselves with a careless nod; and when four or five of them display a tendency to hitch their horses in front of the gate on Sunday evenings, a little palpitation of the heart need not be regarded too seriously.

Here, for instance, are the wealthy Mr. John Bull, the thrifty and studious Herr Hohenzollern, young Mr. Romanoff, and the accomplished Monsieur Crapaud, all sitting together in Miss Columbia's parlor, and each of them scowling a little at the others for being there. Each of them, in truth, is just a little uneasy lest the young lady lose her heart to one of the others.

There is really no cause for alarm. Prince Henry went home with recollections of a cordial welcome from a friendly and hospitable people, and we shall remember his visit with pleasure, both because the man himself is a grand and courteous gentleman, and because the visit expressed the friendship of a nation to which we owe much. In a little while we shall entertain an embassy from France, and dedicate a monument to Rochambeau in Washington. Still later our special ambassador will lend his presence and offer his congratulations to the English people at the coronation; and when the young King of Spain attains his majority, a special ambassador of the United States will be present in Madrid.

These larger interests, this more general participation in the affairs of the world, are matters neither for alarm nor, least of all, for self-conceit. They are

COL. MAX FROST OF SANTA FE TAKES THE 33D DEGREE OF MASONRY

Col. Max Frost, the able editor of the Santa Fe New Mexican, was recently the recipient of the highest Masonic honor. The Denver Republican of March 12 contains the following special dispatch from Santa Fe:

The thirty-third degree of Masonry was conferred to-night at Santa Fe upon Col. Max Frost, it being the first time in the 300 years' history of New Mexico that this degree was conferred within the territory's limits.

Col. Max Frost was born on Jan. 1, 1852, in Louisiana. In that state he attended private schools and college. He went to Washington, D. C., where he read law for two years. Receiving an appointment as chief clerk of the United States military telegraph lines, then in operation in New Mexico, he came to this territory and traveled into every section of the southwest, gaining a broad knowledge of the Rocky mountain region.

Col. Frost served two years as clerk in the surveyor general's office of New Mexico, and was register of the United States land office at Santa Fe under the administration of President Arthur. Acting Governor W. G. Ritch appointed him adjutant general, and he served the territory in that capacity under Gov. Lew Wallace and Gov. Lionel

Sheldon. He was colonel of the first regiment of the New Mexico national guard for six years and saw considerable service against the Indians, cattle rustlers and gangs of outlaws which in those days infested the territory.

In 1884 Col. Frost was admitted to the New Mexico bar. He served as a county commissioner of Santa Fe county in 1891 and 1892 and has held several minor offices as school director of the Santa Fe board of education. As secretary of the bureau of immigration for 10 years, a position he still holds, he has done valuable work in inducing immigration into the territory.

Col. Frost has been for almost 20 years the managing editor of the Santa Fe Daily New Mexican, El Nuevo Mexicano and the New Mexican Review. He is recognized as a political power in the territory, who has done much toward bringing the Republican party to a minority party to a party that is dominant in territorial and county affairs in the majority of counties. A fall from a carriage a few years ago brought on an attack of locomotor ataxia that has robbed him partially of the use of his limbs and has destroyed his eyesight almost altogether. Still he maintains an active grip upon editorial, political and business affairs.

but the natural outcome of our assumption of new responsibilities and our growth in industry and wealth and power. Our latch-string is still of leather, but it has always been out, and it hangs clear to the ground. If new friends are beginning to pull it, they are welcome. So are the old friends. Miss Columbia should not be asked to show a preference that will turn all but one of the suitors from her door. —Youth's Companion.

The Unfortunate Miles.

GEN. MILES has again forced himself into public attention, and again he has placed himself in opposition to the ideas and the purposes of his official superiors. During the Spanish war he had projects which met no favor from anybody except himself, and was opposed to the plans whereby the war was carried to a quick and successful conclusion. Recently, when the pacification of the Philippines seemed to be practically complete, he brought forward a project of finishing the work in the Archipelago with himself as commander in the islands. The President and the secretary of war very properly refused to remove and discredit the men who have been doing the fighting and the pacifying in the Philippines, and therefore turned Miles down just as the man who was President during the Spanish war did in like exigencies.

The general has a new grievance now. He is against the proposition to create an army staff which will be worthy of the

name. He has just appeared before the Senate's committee on military affairs, has denounced the bill and has virtually threatened to resign if it should pass. As the measure follows the lines suggested by Secretary Root, as it has the support of the President as well as the secretary, and as it is favored by a majority of the military men who have given any intelligent thought to the matter which it covers, there is an excellent chance that it will be enacted. In that case, if the general's words be taken literally, he will step down and out of the army.

There are many intelligent, unbiased persons in the United States who think that Miles' retirement from the army would be a benefit to the service. He has been a sorehead, a kicker and an intriguer for the past four or five years.

Scarcely a month has passed since the declaration of war against Spain in 1898 which has not revealed some new Miles grievance or antipathy. In army matters in all these four years everything that is has been wrong to him. The army has done some brilliant work in the interval, and the government has been satisfied with this work. In most of the instances the direct inspiration and method of execution of the work has come from the government. But Miles has opposed the whole of it, has condemned the men who carried it out, and has reflected upon the commander-in-chief—McKinley in the earlier and heavier part of the work and Roosevelt in its

recent stages—and upon the heads of the department in immediate control of the army. The general has shown an insubordination and a disregard for the traditions of the service which should call down upon him something more drastic than the reprimand which was inflicted upon him a few weeks ago by the secretary of war. Miles has become such an implacable and an obstructive that nothing in his military career now would become him like the leaving it.—Globe-Democrat.

A WORTHY SUCCESSOR.

"Something New Under The Sun."

All Doctors have tried to cure catarrh by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of catarrh, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "Snuffles, the guaranteed catarrh cure" and is sold at the extremely low price of One Dollar. Each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"Snuffles" is the only catarrh cure ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve hay fever or cold in the head.

Catarrh when neglected often leads to consumption—"Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure catarrh in any form or stage if use according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the "Guaranteed catarrh cure."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept E 117, Edwin B. Giles & Company, 2330 and 2332 Market Street, Philadelphia.

There is no question that the surest and sanest influence that can come into the life of man or woman is that which is brought therein by a child.—April Ladies' Home Journal.

Headache often results from a disordered condition of the stomach and constipation of the bowels. A dose or two of Chamberlain's Stomach and Liver Tablets will correct these disorders and cure the headache. Sold by A. E. Howell, Socorro; W. M. Borrowdale, Magdalena.

Every one ought to know his Shakespeare; for the plays constitute, on the whole, the foremost text-book which our race has given to the world.—April Ladies' Home Journal.

Candies, nuts, oranges and apples at Katzenstein's.

12 Minutes for Lunch.

That is the average time spent in a large city restaurant by three thousand lunchers. It takes three hours to digest a fresh egg soft boiled; three hours to digest a boiled apple dumpling; three hours to digest fresh roast beef. In fact, three hours is about the time required to digest the average twelve minute lunch. The object of the busy lunch is to let the busy man get back to his office work. But when the brain is active, the stomach is inactive for lack of necessary blood. The natural consequence is indigestion, and indigestion opens the door to many diseases.

Indigestion is cured by the use of Dr. Pierce's Golden Medical Discovery, which cures diseases of the stomach and other organs of digestion and nutrition, and enables the perfect digestion and assimilation of food.

"It is with heartfelt gratitude that I send this testimonial which I wish you to publish with my name and address," writes Mr. Willis Seaman, of Washingtonville, Ore. "I had stomach trouble from childhood and suffered with it more or less as I grew up. At the age of 26 I was broken down with dyspepsia. My suffering was terrible. Could not eat without distress. Could only eat a few certain things and was not able to work half the time. Every thing I tried only gave me temporary relief. My wife finally persuaded me to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I took six bottles of the 'Golden Medical Discovery' and two vials of Dr. Pierce's Pleasant Pellets. I then felt so well that I stopped taking medicine. Several months have passed and I can do the hardest kind of work, can eat anything that is set before me and enjoy it. I am 37 years old and this is the first time I have ever been well."

Free. Dr. Pierce's Common Sense Medical Adviser in paper covers is sent free on receipt of 21 one-cent stamps to pay expense of mailing only; or 31 stamps for cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

An Extraordinary Prayer.

A volume of reminiscences by Dean Hole quotes the following extraordinary prayer as offered by a loyal but certainly injudicious English clergyman on behalf of Queen Adelaide, the wife of William IV.:

"O Lord, save thy servant, our sovereign lady, the queen; grant that as she grows an old woman she may become a new man; strengthen her with thy blessing that she may live a pure virgin, bringing forth sons and daughters to the glory of God, and give her grace that she may go forth before her people like a he goat on the mountains."

The Vice of Naggling.

Clouds the happiness of the home, but a nagging woman often needs help. She may be so nervous and run-down in health that trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters, the most wonderful remedy for ailing women. Thousands of sufferers, from female troubles, nervous troubles, backache and weak kidneys have used it, and become healthy and happy. Try it. Only 50c at all druggists. Guarantee satisfaction.

If you want a white dress that will wear two seasons, wash well and never look old-fashioned, have one of lawn trimmed with Swiss insertion.—April Ladies' Home Journal.

Lockjaw from Cobwebs.

Cobwebs put on a cut lately gave a woman lockjaw. Millions know that the best thing to put on a cut is Bucklen's Arnica Salve, the infallible healer of wounds, ulcers, sores, skin eruptions, burns, scalds and piles. It cures or no pay. Only 25c at all druggists.

Nobody is ever really practical who has not an ideal before her. You must see before you can plan or do.—April Ladies' Home Journal.

TAPE WORMS

"A tape worm eighteen feet long at least came on the second after my taking two CASCARETS. This I am sure has caused my bad health for the past three years. I am still taking Cascarets, the only cathartic worthy of notice by sensible people."

GEO. W. BOWLES, Baird, Miss.
